If True Grand Father : Difference of Opinions

These are two opinions for grand father with/without consanguineous brothers and sisters.

1). Grand Father takes the balance brothers and sisters get nil.
Grand father is not eligible for fixed share when brothers and sisters consanguineous brothers or sisters. Accepted by Imam Abow Hanifa.In that case grand father's share is as shown in the chart like father. 1/6+Balance and brothers/sisters get nil.

2). Grand Father shares the balance with brothers and sisters.
Grand father is eligible for fixed share when brothers and sisters consanguineous and full and/or consanguineous brother's is alive. Three calculations are made. 1/3 of the balance share, 1/6 of the balance share and 1/6 of the balance share. Grand father gets a equal to that of brother and double that of other sis. grandfather gets 1/3 of balance and the rest to brother sister. 2)

Accepted by Imam Abu Yusuf, Imam Malik, Imam Shafi. In this calculation grandfather gets higher and he gives for that share. If full brothers or sisters are born together with consanguineous, then consanguineous are excluded like any other case. Grand father is not eligible for fixed share when brothers and sisters. Father's balance share is given consanguineous brother or sister's share is given to full brother or sister or both as the case may be.This is accepted by Imam Abu Hanifa and other Imams. Most fatwa accepted opinion. This is not for uterine brothers or sisters

Mother Share: See the total number of brothers and sisters of all kind. If the total number of brothers and sisters is 1, mother will get 1/3, if 2 or more mother will get 1/6.
